## Section 5. Information on catch certification scheme for exportation<sup>22</sup>

5.1. Have you established a procedure for validation of catch certificates for exportation of catches from own vessels in accordance with Article 15?

Yes  No

Not applicable (e.g. in the absence of validation of catch certificates for exportation in 2020-2021)

If yes, please explain briefly the established procedure and answer questions 5.2 to 5.5.

*Catch certificates to be validated are submitted to the Veterinary and food Board who runs crosschecks of catch certificate data against fleet register, permit data, logbooks, landings, sales notes etc data. Certificates are registered in the electronic document register of the Board (some metadata + pdf-files). Catch certificates are numbered in accordance with the suggestions from the Commission (ISO-3 code of Flag State (EST) – Fishing Segment (national segmentation) - Year – Certificate Sequence Number in a given year; e.g. EST-2- 2014-213). The Sequence Number is automatically attributed to the certificate by the document register.*

*All catch certificates submitted for validation are registered in the document register. However, only a certain amount of metadata (name of exporter, name(s) of vessel(s) etc. along with scans (.pdf) of the certificates are recorded. The creation of a more comprehensive IT tool greatly depends on the setting of general standards and data structure by the Commission.*

5.2. Have you validated catch certificates for exportation in 2020-2021 in accordance with Article 15?

Yes  No

If yes, how many catch certificates did you validate from 1 January 2020 to 31 December 2021? Please provide details per requesting third country/country of destination in the following table:

Destination State <sup>23</sup>	Year	
	2020	2021
Total	175*	227*

Information is not available by countries.

5.3. Have you established any IT tool to monitor the catch certificates you have validated for fish caught by your own vessels?

Yes  No

5.4. Do you monitor that the catches for which you have validated catch certificates actually leave the EU?

Yes  No

<sup>22</sup> Section to be filled-in by flag Member States.

<sup>23</sup> ISO Alpha-2 country codes.

*Not applicable (e.g. in the absence of validation of catch certificates for exportation in 2020-2021)*

*The Food- and Veterinary Board does not monitor whether catches declared with catch certificates actually leave the EU, but control authorities have the capability to cross-check catch certificates with the customs declarations and transport documents.*

5.5. Has your country refused the validation of a catch certificate between 1 January 2020 and 31 December 2021?

*Yes*                       *No*

*In the case of insufficient of data or inconsistencies revealed by the cross-check of data the Food- and Veterinary Board informs the exporter of the discrepancies, who then has the possibility to send corrected catch certificate.*

*Not applicable (e.g. in the absence of request for validation of catch certificates for exportation in 2020-2021)*

If yes, please detail:

*Number (per year): .....*

*Reason: .....*

6.1. Has your country established a procedure for checks of catch certificates in accordance with Article 16.1?

*Yes*                       *No*

If yes, please detail: Verification is carried out by the Estonian Tax and Customs Board. CN codes of fishery products have been entered into Customs risk assessment tool SELECT, all the consignments are sent into the “yellow channel” for document control. A specially appointed Customs Division official ensures an active support in CC verifications for “yellow channel” declarations processing customs officers, then collects pdf-files with catch certificates and forwards them to the single liaison officer from the Ministry of the Environment. Ministry of the Environment assists the Customs Board and carries out ex-post evaluation.

6.2. Do you check all catch certificates in light of the information provided in the notifications received from the flag States in accordance with Article 20 (i.e. if all required data are provided in a catch certificate and if these data correspond to the notification from the flag State in question)?
